

1 **WHAT IS CLAIMED IS:**

2 1. A golf club head comprising:

3 a hollow body with a heel, a toe, a top, a bottom, a strike plate and a rear
4 portion;

5 a recess defined by a periphery at the bottom of the body and extending
6 to the rear portion of the body;

7 a strip integrated with the body and covering the recess;

8 a tab formed at the rear portion of the body, and having an inlet defined
9 through the tab and in communication with the recess;

10 vibration-absorbing material injected into the recess through the inlet;

11 and

12 a sealing element engaged in the inlet to close the recess.

13 2. The golf club head as claimed in claim 1, wherein the periphery
14 defining the recess has an aperture defined therethrough and in communication
15 with the interior of the body.

16 3. The golf club head as claimed in claim 1, wherein the sealing element
17 has a passage longitudinally defined through the sealing element.

18 4. A golf club head comprising:

19 a hollow body with a heel, a toe, a top, a bottom, a strike plate and a rear
20 portion;

21 a recess defined by a periphery at the rear portion of the body and
22 extending to the rear portion of the body;

23 a strip integrated with the body and covering the recess;

24 a tab formed at the top of the body, and having an inlet defined through

1 the tab and in communication with the recess;
2 vibration-absorbing material injected into the recess through the inlet;
3 and

4 a sealing element engaged in the inlet to close the recess.

5 5. The golf club head as claimed in claim 4, wherein the periphery
6 defining the recess has an aperture defined therethrough and in communication
7 with the interior of the body.

8 6. The golf club head as claimed in claim 4, wherein the sealing element
9 has a passage longitudinally defined through the sealing element.
